III. NOTICES

OTHER MOTIONS

1. *Mr. Singer*—Resolution—That this House advise the Minister of Justice at Ottawa of its grave concern relating to the distribution of hate literature and racist propaganda in the Province of Ontario, and that the Government of Canada be urged that amendments be made to the Criminal Code of Canada which will make it an offence for anyone to advocate or promote genocide, or for anyone to communicate statements in any public place which incite hatred or contempt against any identifiable group, where such incitement is likely to lead to a breach of the peace, unless such statements communicated were true or relevant to any subject of public interest and on reasonable grounds were believed to be true.

2. *Mr. Dunlop*—Resolution—That, as, in the opinion of this House, the dissemination of statements or matter disparaging to individuals or groups by reason of race, national origin, colour or religion, is a matter of grave concern, and as it has been long held to be contrary to public policy to promote feelings of ill-will and hostility between different classes of Her Majesty's subjects, the Ministry should make further and appropriate representations to the Government of Canada advocating the enactment of amendments to the Criminal Code and other legislation designed to eliminate those acts offensive to the dignity of Canadian society without the erosion of any of the liberties of the subject so long recognized as fundamental to our concept of democracy; and that the following amendments to the Criminal Code be included among the specific legislative proposals to be made as part of these representations:
 - (1) Everyone who publishes or circulates or causes to be published or circulated, orally or in writing, any matter intended or calculated to incite violence or provoke disorder against any class of persons, or against any person as a member of any class in Canada, is guilty of an indictable offence and is liable to punishment.

 - (2) Everyone who publishes, orally or in writing, a statement, tale, news or matter that he knows or ought to know is likely to cause injury or mischief to the public interest, is guilty of an indictable offence and is liable to punishment, save that no person shall be convicted of an offence under this section by reason only of having published statements relating to controversial, social, economic, political or religious beliefs or opinions, unless he advocates or incites disorder or the use of violence, or intends primarily to promote hatred or hostility against a racial, national, religious or ethnic group or the members thereof.

 - (3) (i) Everyone who, with intent to destroy, in whole or in part, a national, ethnic, racial or religious group as such, kills a member of the group, is guilty of an indictable offence and is subject to such penalty as the Criminal Code provides for murder; and

- (ii) Everyone who, with intent to destroy, in whole or in part, a national, ethnic, racial or religious group as such, causes bodily or mental harm to a member or members of the group, or deliberately inflicts on the group or any of its members conditions of life calculated to bring about its physical destruction, in whole or in part, is guilty of an indictable offence and is liable to punishment.
3. *Mr. Thompson*—Resolution—That a Select Committee of this House be appointed immediately to review the rules and procedures of the House and to recommend appropriate changes, including a complete re-organization of the Committee system and amendments to the rules to permit the filming and tape-recording of the regular business of this House, providing certain safeguards against interference with the proceedings or dignity of this Chamber.
 4. *Mr. Gaunt*—Resolution—That legislation be enacted: to provide for provincial licensing and inspection of existing nursing homes to ensure the maintenance of provincial standards of care, cleanliness and safety; to extend coverage under the Ontario Hospital Services Commission to all aged and infirm persons who are no longer eligible to remain in hospitals but require long-term care in institutions not at present covered by Ontario Hospital Services Commission; to foster the establishment by the province of nursing homes for the chronically ill.
 5. *Mr. Nixon*—Resolution—That this House take the appropriate action to:
 1. Create a permanent system of voter registration to replace the existing enumeration of voters.
 2. Amend The Election Act of Ontario to:
 - (a) reduce the eligible voting age from twenty-one to eighteen years;
 - (b) provide for the payment of set funds from the Public Treasury to cover expenses incurred by candidates in Provincial general elections or by-elections;
 - (c) require the printing on all ballots in all provincial elections of the candidate's party affiliation.
 3. Petition the federal government to permit individual contributors to political parties recognized in Provincial general elections to claim the full amount of their contributions as a deduction from their taxable income per tax return year in the same manner and in addition to the deductions allowed as contributions to charities, specifying that the only contributions eligible for deduction are those made to the provincial association, the local constituency association, the official agent of the party leader or the candidate.
 6. *Mr. Paterson*—Resolution—That, in the opinion of this House, this Government should make available long-term, guaranteed loans at reasonable interest rates for the development of legitimate attractions and accommodations in the tourist industry.

7. *Mr. Worton*—Resolution—That discussions be initiated with the federal government to institute changes in the laws of divorce for the Province of Ontario to alleviate the hardships at present caused by such matters as the deserted wife, the difficulties caused on certain occasions by the law of domicile, long-term imprisonment, confinement to mental institutions, and related matters.
8. *Mr. Oliver*—Resolution—That the Ontario Water Resources Commission be instructed to report upon the feasibility of piping water from the Great Lakes to drought areas in Western Ontario.
9. *Mr. Spence*—Resolution—That legislation be enacted to permit school boards located in cash crop areas of the province to extend the summer holiday for high school students by one week, such week to be recovered during the school year or at the beginning of the summer holidays in the following year, in order to provide a maximum labour force for farmers harvesting cash crops.
10. *Mr. MacDonald*—Resolution—That, in the opinion of this House, a Select Committee should be established to consider Ontario's approach to changes in the constitution, particularly an amending formula; that this committee should commence its work immediately, and report to the 1967 Session of the Legislature.
11. *Mr. Bryden*—Resolution—That, in the opinion of this House, the Government should forthwith announce an intention to co-operate with the federal government in implementing at the earliest possible date a universal medical care insurance program administered by a provincial agency, which will apply to all residents on uniform terms and conditions, will cover the services of both specialists and general practitioners, and will provide for portability of benefits among provinces.

Petition the federal government to permit individual contributors to political parties recognized in Provincial general elections to claim the full amount of their contributions as a deduction from their taxable income per tax return year in the same manner and in addition to the deductions allowed as contributions to charities, specifying that the only contributions eligible for deduction are those made to the provincial association, the local constituency association, the official agent of the party leader or the candidate.
6. *Mr. Paterson*—Resolution—That, in the opinion of this House, this Government should make available long-term, guaranteed loans at reasonable interest rates for the development of legitimate attractions and accommodations in the tourist industry.

7. *Mr. Worton*—Resolution—That discussions be initiated with the federal government to institute changes in the laws of divorce for the Province of Ontario to alleviate the hardships at present caused by such matters as the deserted wife, the difficulties caused on certain occasions by the law of domicile, long-term imprisonment, confinement to mental institutions, and related matters.
8. *Mr. Oliver*—Resolution—That the Ontario Water Resources Commission be instructed to report upon the feasibility of piping water from the Great Lakes to drought areas in Western Ontario.
9. *Mr. Spence*—Resolution—That legislation be enacted to permit school boards located in cash crop areas of the province to extend the summer holiday for high school students by one week, such week to be recovered during the school year or at the beginning of the summer holidays in the following year, in order to provide a maximum labour force for farmers harvesting cash crops.
10. *Mr. MacDonald*—Resolution—That, in the opinion of this House, a Select Committee should be established to consider Ontario's approach to changes in the constitution, particularly an amending formula; that this committee should commence its work immediately, and report to the 1967 Session of the Legislature.
11. *Mr. Bryden*—Resolution—That, in the opinion of this House, the Government should forthwith announce an intention to co-operate with the federal government in implementing at the earliest possible date a universal medical care insurance program administered by a provincial agency, which will apply to all residents on uniform terms and conditions, will cover the services of both specialists and general practitioners, and will provide for portability of benefits among provinces.
12. *Mr. Sopha*—Resolution—That, in the opinion of this House, it is deplorable that the citizens of many organized municipalities have not got adequate and certain supplies of fresh and potable water nor have the citizens of many municipalities adequate sewage disposal facilities, and, in the opinion of this House, adequate water and sewage services are a minimum requirement for the protection of health, enjoyment of a reasonable standard of living and the attraction and development of industrial growth. This House is further of the opinion that the Government has lacked direction and purpose in providing for many thousands of our citizens their minimum requirements of fresh water and reasonable facilities of sewage disposal.
13. *Mr. Ben*—Motion for a Return of the report from the Municipality of Metropolitan Toronto to the Attorney General on the operation of Juvenile and Family Courts, together with the previous report on the same subject made to Mr. Roberts shortly before he relinquished the portfolio of Attorney General.

14. *Mr. Trotter*—Resolution—That this House support the Federal Government's proposed comprehensive, universal Government-operated health insurance program covering all of the people of Canada. This House is of the opinion that the Government of Ontario should implement such a comprehensive universal Government-operated plan until the Federal Government's plan becomes operative.

Such a plan should include the following principles among others:

1. Mental illness shall be treated on the same basis as all other illness.
2. Tuberculosis patients shall be completely covered.
3. Doctors shall be paid on a fee for service basis and be free to practise within or without the Plan.
4. The patient shall have the right to be treated by the doctor of his choice.
5. No Means Test.

15. *Mr. Young*—Resolution—That legislation be enacted to provide a system of compensation without fault for injuries, death and property damage caused by automobile accidents, as unanimously recommended by the Select Committee on Automobile Insurance, and that such a system be administered by a public agency.
16. *Mr. Wells*—Resolution—That, as, in the opinion of this House, the Criminal Code of Canada's injunction against the dissemination of birth control information and the promotion and sale of contraceptive substances and devices is an anachronism which is being defied every day and is not being enforced, appropriate representations be made to the Government of Canada advocating the repeal of that portion of Section 150, Clause 2 (c) of the Criminal Code which pertains to contraception.

5. *Mr. Nixon*—Resolution—That this House take the appropriate action to:
 1. Create a permanent system of voter registration to replace the existing enumeration of voters.
 2. Amend The Election Act of Ontario to:

 3. Petition the federal government to permit individual contributors to political parties recognized in Provincial general elections to claim the full amount of their contributions as a deduction from their taxable income per tax return year in the same manner and in addition to the deductions allowed as contributions to charities, specifying that the only contributions eligible for deduction are those made to the provincial association, the local constituency association, the official agent of the party leader or the candidate.
6. *Mr. Paterson*—Resolution—That, in the opinion of this House, this Government should make available long-term, guaranteed loans at reasonable interest rates for the development of legitimate attractions and accommodations in the tourist industry.

7. *Mr. Worton*—Resolution—That discussions be initiated with the federal government to institute changes in the laws of divorce for the Province of Ontario to alleviate the hardships at present caused by such matters as the deserted wife, the difficulties caused on certain occasions by the law of domicile, long-term imprisonment, confinement to mental institutions, and related matters.
8. *Mr. Oliver*—Resolution—That the Ontario Water Resources Commission be instructed to report upon the feasibility of piping water from the Great Lakes to drought areas in Western Ontario.

10. *Mr. MacDonald*—Resolution—That, in the opinion of this House, a Select Committee should be established to consider Ontario's approach to changes in the constitution, particularly an amending formula; that this committee should commence its work immediately, and report to the 1967 Session of the Legislature.
11. *Mr. Bryden*—Resolution—That, in the opinion of this House, the Government should forthwith announce an intention to co-operate with the federal government in implementing at the earliest possible date a universal medical care insurance program administered by a provincial agency, which will apply to all residents on uniform terms and conditions, will cover the services of both specialists and general practitioners, and will provide for portability of benefits among provinces.
12. *Mr. Sopha*—Resolution—That, in the opinion of this House, it is deplorable that the citizens of many organized municipalities have not got adequate and certain supplies of fresh and potable water nor have the citizens of many municipalities adequate sewage disposal facilities, and, in the opinion of this House, adequate water and sewage services are a minimum requirement for the protection of health, enjoyment of a reasonable standard of living and the attraction and development of industrial growth. This House is further of the opinion that the Government has lacked direction and purpose in providing for many thousands of our citizens their minimum requirements of fresh water and reasonable facilities of sewage disposal.

16. *Mr. Wells*—Resolution—That, as, in the opinion of this House, the Criminal Code of Canada's injunction against the dissemination of birth control information and the promotion and sale of contraceptive substances and devices is an anachronism which is being defied every day and is not being enforced, appropriate representations be made to the Government of Canada advocating the repeal of that portion of Section 150, Clause 2 (c) of the Criminal Code which pertains to contraception.
17. *Mr. Lewis* (Scarborough West)—Resolution—That, in the opinion of this House, the provisions of the Criminal Code which relate to the subject-matter of abortion are ambiguous, ill-defined, and harshly restrictive; and that therefore this House urges upon the Government of Canada the repeal and subsequent re-drafting of the relevant sections 237 (1) (2) (3) and 209 (1) (2) of the Code in the direction of liberalizing the grounds for the granting of therapeutic abortion to take into account such factors as, in addition to preserving the life of the mother, rape, incest, emotional well-being, and related considerations.

This House is further of the opinion that the Government has lacked direction and purpose in providing for many thousands of our citizens their minimum requirements of fresh water and reasonable facilities of sewage disposal.
13. *Mr. Ben*—Motion for a Return of the report from the Municipality of Metropolitan Toronto to the Attorney General on the operation of Juvenile and Family Courts, together with the previous report on the same subject made to Mr. Roberts shortly before he relinquished the portfolio of Attorney General.

14. *Mr. Trotter*—Resolution—That this House support the Federal Government's proposed comprehensive, universal Government-operated health insurance program covering all of the people of Canada. This House is of the opinion that the Government of Ontario should implement such a comprehensive universal Government-operated plan until the Federal Government's plan becomes operative.

Such a plan should include the following principles among others:

1. Mental illness shall be treated on the same basis as all other illness.
 2. Tuberculosis patients shall be completely covered.
 3. Doctors shall be paid on a fee for service basis and be free to practise within or without the Plan.
 4. The patient shall have the right to be treated by the doctor of his choice.
 5. No Means Test.
15. *Mr. Young*—Resolution—That legislation be enacted to provide a system of compensation without fault for injuries, death and property damage caused by automobile accidents, as unanimously recommended by the Select Committee on Automobile Insurance, and that such a system be administered by a public agency.
16. *Mr. Wells*—Resolution—That, as, in the opinion of this House, the Criminal Code of Canada's injunction against the dissemination of birth control information and the promotion and sale of contraceptive substances and devices is an anachronism which is being defied every day and is not being enforced, appropriate representations be made to the Government of Canada advocating the repeal of that portion of Section 150, Clause 2 (c) of the Criminal Code which pertains to contraception.
17. *Mr. Lewis* (Scarborough West)—Resolution—That, in the opinion of this House, the provisions of the Criminal Code which relate to the subject-matter of abortion are ambiguous, ill-defined, and harshly restrictive; and that therefore this House urges upon the Government of Canada the repeal and subsequent re-drafting of the relevant sections 237 (1) (2) (3) and 209 (1) (2) of the Code in the direction of liberalizing the grounds for the granting of therapeutic abortion to take into account such factors as, in addition to preserving the life of the mother, rape, incest, emotional well-being, and related considerations.
18. *Mr. Kerr*—Resolution—That, in view of the high cost of repairing motor vehicles and the corresponding increase in insurance rates in Ontario, a study be conducted as to the procedure followed by insurance companies licensed in the Province in assessing and adjusting accident claims, including the system of tendering on cost of repairs of insured vehicles.

III. NOTICES

OTHER MOTIONS

4. *Mr. Gaunt*—Revised Resolution—That the Ontario Hospital Services Commission extend coverage to all aged and infirm persons who are no longer eligible to remain in hospital but require long-term care and who choose to enter a nursing home, provided that nursing home is provincially licensed and inspected. Also, That O.H.S.C. be extended to cover disabled children, whose disability is so great that they are incapable of caring for themselves.
6. *Mr. Paterson*—Resolution—That, in the opinion of this House, this Government should make available long-term, guaranteed loans at reasonable interest rates for the development of legitimate attractions and accommodations in the tourist industry.
7. *Mr. Worton*—Resolution—That discussions be initiated with the federal government to institute changes in the laws of divorce for the Province of Ontario to alleviate the hardships at present caused by such matters as the deserted wife, the difficulties caused on certain occasions by the law of domicile, long-term imprisonment, confinement to mental institutions, and related matters.
8. *Mr. Oliver*—Resolution—That the Ontario Water Resources Commission be instructed to report upon the feasibility of piping water from the Great Lakes to drought areas in Western Ontario.
9. *Mr. Spence*—Resolution—That legislation be enacted to permit school boards located in cash crop areas of the province to extend the summer holiday for high school students by one week, such week to be recovered during the school year or at the beginning of the summer holidays in the following year, in order to provide a maximum labour force for farmers harvesting cash crops.
10. *Mr. MacDonald*—Resolution—That, in the opinion of this House, a Select Committee should be established to consider Ontario's approach to changes in the constitution, particularly an amending formula; that this committee should commence its work immediately, and report to the 1967 Session of the Legislature.
11. *Mr. Bryden*—Resolution—That, in the opinion of this House, the Government should forthwith announce an intention to co-operate with the federal government in implementing at the earliest possible date a universal medical care insurance program administered by a provincial agency, which will apply to all residents on uniform terms and conditions, will cover the services of both specialists and general practitioners, and will provide for portability of benefits among provinces.
12. *Mr. Sopha*—Resolution—That, in the opinion of this House, it is deplorable that the citizens of many organized municipalities have not got adequate and certain supplies of fresh and potable water nor have the citizens of many municipalities adequate sewage disposal facilities, and, in the

opinion of this House, adequate water and sewage services are a minimum requirement for the protection of health, enjoyment of a reasonable standard of living and the attraction and development of industrial growth. This House is further of the opinion that the Government has lacked direction and purpose in providing for many thousands of our citizens their minimum requirements of fresh water and reasonable facilities of sewage disposal.

13. *Mr. Ben*—Motion for a Return of the report from the Municipality of Metropolitan Toronto to the Attorney General on the operation of Juvenile and Family Courts, together with the previous report on the same subject made to Mr. Roberts shortly before he relinquished the portfolio of Attorney General.
14. *Mr. Trotter*—Resolution—That this House support the Federal Government's proposed comprehensive, universal Government-operated health insurance program covering all of the people of Canada. This House is of the opinion that the Government of Ontario should implement such a comprehensive universal Government-operated plan until the Federal Government's plan becomes operative.

Such a plan should include the following principles among others:

1. Mental illness shall be treated on the same basis as all other illness.
 2. Tuberculosis patients shall be completely covered.
 3. Doctors shall be paid on a fee for service basis and be free to practise within or without the Plan.
 4. The patient shall have the right to be treated by the doctor of his choice.
 5. No Means Test.
15. *Mr. Young*—Resolution—That legislation be enacted to provide a system of compensation without fault for injuries, death and property damage caused by automobile accidents, as unanimously recommended by the Select Committee on Automobile Insurance, and that such a system be administered by a public agency.
 16. *Mr. Wells*—Resolution—That, as, in the opinion of this House, the Criminal Code of Canada's injunction against the dissemination of birth control information and the promotion and sale of contraceptive substances and devices is an anachronism which is being defied every day and is not being enforced, appropriate representations be made to the Government of Canada advocating the repeal of that portion of Section 150, Clause 2 (c) of the Criminal Code which pertains to contraception.
 17. *Mr. Lewis* (Scarborough West)—Resolution—That, in the opinion of this House, the provisions of the Criminal Code which relate to the subject-matter of abortion are ambiguous, ill-defined, and harshly restrictive; and

that therefore this House urges upon the Government of Canada the repeal and subsequent re-drafting of the relevant sections 237 (1) (2) (3) and 209 (1) (2) of the Code in the direction of liberalizing the grounds for the granting of therapeutic abortion to take into account such factors as, in addition to preserving the life of the mother, rape, incest, emotional well-being, and related considerations.

18. *Mr. Kerr*—Resolution—That, in view of the high cost of repairing motor vehicles and the corresponding increase in insurance rates in Ontario, a study be conducted as to the procedure followed by insurance companies licensed in the Province in assessing and adjusting accident claims, including the system of tendering on cost of repairs of insured vehicles.

III. NOTICES

OTHER MOTIONS

4. *Mr. Gaunt*—Revised Resolution—That the Ontario Hospital Services Commission extend coverage to all aged and infirm persons who are no longer eligible to remain in hospital but require long-term care and who choose to enter a nursing home, provided that nursing home is provincially licensed and inspected. Also, That O.H.S.C. be extended to cover disabled children, whose disability is so great that they are incapable of caring for themselves.
6. *Mr. Paterson*—Resolution—That, in the opinion of this House, this Government should make available long-term, guaranteed loans at reasonable interest rates for the development of legitimate attractions and accommodations in the tourist industry.
7. *Mr. Worton*—Resolution—That discussions be initiated with the federal government to institute changes in the laws of divorce for the Province of Ontario to alleviate the hardships at present caused by such matters as the deserted wife, the difficulties caused on certain occasions by the law of domicile, long-term imprisonment, confinement to mental institutions, and related matters.
8. *Mr. Oliver*—Resolution—That the Ontario Water Resources Commission be instructed to report upon the feasibility of piping water from the Great Lakes to drought areas in Western Ontario.
9. *Mr. Spence*—Resolution—That legislation be enacted to permit school boards located in cash crop areas of the province to extend the summer holiday for high school students by one week, such week to be recovered during the school year or at the beginning of the summer holidays in the following year, in order to provide a maximum labour force for farmers harvesting cash crops.
10. *Mr. MacDonald*—Resolution—That, in the opinion of this House, a Select Committee should be established to consider Ontario's approach to changes in the constitution, particularly an amending formula; that this committee should commence its work immediately, and report to the 1967 Session of the Legislature.
11. *Mr. Bryden*—Resolution—That, in the opinion of this House, the Government should forthwith announce an intention to co-operate with the federal government in implementing at the earliest possible date a universal medical care insurance program administered by a provincial agency, which will apply to all residents on uniform terms and conditions, will cover the services of both specialists and general practitioners, and will provide for portability of benefits among provinces.
12. *Mr. Sopha*—Resolution—That, in the opinion of this House, it is deplorable that the citizens of many organized municipalities have not got adequate and certain supplies of fresh and potable water nor have the citizens of many municipalities adequate sewage disposal facilities, and, in the

opinion of this House, adequate water and sewage services are a minimum requirement for the protection of health, enjoyment of a reasonable standard of living and the attraction and development of industrial growth. This House is further of the opinion that the Government has lacked direction and purpose in providing for many thousands of our citizens their minimum requirements of fresh water and reasonable facilities of sewage disposal.

13. *Mr. Ben*—Motion for a Return of the report from the Municipality of Metropolitan Toronto to the Attorney General on the operation of Juvenile and Family Courts, together with the previous report on the same subject made to Mr. Roberts shortly before he relinquished the portfolio of Attorney General.
14. *Mr. Trotter*—Resolution—That this House support the Federal Government's proposed comprehensive, universal Government-operated health insurance program covering all of the people of Canada. This House is of the opinion that the Government of Ontario should implement such a comprehensive universal Government-operated plan until the Federal Government's plan becomes operative.

Such a plan should include the following principles among others:

1. Mental illness shall be treated on the same basis as all other illness.
 2. Tuberculosis patients shall be completely covered.
 3. Doctors shall be paid on a fee for service basis and be free to practise within or without the Plan.
 4. The patient shall have the right to be treated by the doctor of his choice.
 5. No Means Test.
15. *Mr. Young*—Resolution—That legislation be enacted to provide a system of compensation without fault for injuries, death and property damage caused by automobile accidents, as unanimously recommended by the Select Committee on Automobile Insurance, and that such a system be administered by a public agency.
 16. *Mr. Wells*—Resolution—That, as, in the opinion of this House, the Criminal Code of Canada's injunction against the dissemination of birth control information and the promotion and sale of contraceptive substances and devices is an anachronism which is being defied every day and is not being enforced, appropriate representations be made to the Government of Canada advocating the repeal of that portion of Section 150, Clause 2 (c) of the Criminal Code which pertains to contraception.
 17. *Mr. Lewis* (Scarborough West)—Resolution—That, in the opinion of this House, the provisions of the Criminal Code which relate to the subject-matter of abortion are ambiguous, ill-defined, and harshly restrictive; and

that therefore this House urges upon the Government of Canada the repeal and subsequent re-drafting of the relevant sections 237 (1) (2) (3) and 209 (1) (2) of the Code in the direction of liberalizing the grounds for the granting of therapeutic abortion to take into account such factors as, in addition to preserving the life of the mother, rape, incest, emotional well-being, and related considerations.

18. *Mr. Kerr*—Resolution—That, in view of the high cost of repairing motor vehicles and the corresponding increase in insurance rates in Ontario, a study be conducted as to the procedure followed by insurance companies licensed in the Province in assessing and adjusting accident claims, including the system of tendering on cost of repairs of insured vehicles.

III. NOTICES

OTHER MOTIONS

4. *Mr. Gaunt*—Revised Resolution—That the Ontario Hospital Services Commission extend coverage to all aged and infirm persons who are no longer eligible to remain in hospital but require long-term care and who choose to enter a nursing home, provided that nursing home is provincially licensed and inspected. Also, That O.H.S.C. be extended to cover disabled children, whose disability is so great that they are incapable of caring for themselves.
6. *Mr. Paterson*—Resolution—That, in the opinion of this House, this Government should make available long-term, guaranteed loans at reasonable interest rates for the development of legitimate attractions and accommodations in the tourist industry.
7. *Mr. Worton*—Resolution—That discussions be initiated with the federal government to institute changes in the laws of divorce for the Province of Ontario to alleviate the hardships at present caused by such matters as the deserted wife, the difficulties caused on certain occasions by the law of domicile, long-term imprisonment, confinement to mental institutions, and related matters.
8. *Mr. Oliver*—Resolution—That the Ontario Water Resources Commission be instructed to report upon the feasibility of piping water from the Great Lakes to drought areas in Western Ontario.
9. *Mr. Spence*—Resolution—That legislation be enacted to permit school boards located in cash crop areas of the province to extend the summer holiday for high school students by one week, such week to be recovered during the school year or at the beginning of the summer holidays in the following year, in order to provide a maximum labour force for farmers harvesting cash crops.
10. *Mr. MacDonald*—Resolution—That, in the opinion of this House, a Select Committee should be established to consider Ontario's approach to changes in the constitution, particularly an amending formula; that this committee should commence its work immediately, and report to the 1967 Session of the Legislature.
11. *Mr. Bryden*—Resolution—That, in the opinion of this House, the Government should forthwith announce an intention to co-operate with the federal government in implementing at the earliest possible date a universal medical care insurance program administered by a provincial agency, which will apply to all residents on uniform terms and conditions, will cover the services of both specialists and general practitioners, and will provide for portability of benefits among provinces.
12. *Mr. Sopha*—Resolution—That, in the opinion of this House, it is deplorable that the citizens of many organized municipalities have not got adequate and certain supplies of fresh and potable water nor have the citizens of many municipalities adequate sewage disposal facilities, and, in the

opinion of this House, adequate water and sewage services are a minimum requirement for the protection of health, enjoyment of a reasonable standard of living and the attraction and development of industrial growth. This House is further of the opinion that the Government has lacked direction and purpose in providing for many thousands of our citizens their minimum requirements of fresh water and reasonable facilities of sewage disposal.

13. *Mr. Ben*—Motion for a Return of the report from the Municipality of Metropolitan Toronto to the Attorney General on the operation of Juvenile and Family Courts, together with the previous report on the same subject made to Mr. Roberts shortly before he relinquished the portfolio of Attorney General.
14. *Mr. Trotter*—Resolution—That this House support the Federal Government's proposed comprehensive, universal Government-operated health insurance program covering all of the people of Canada. This House is of the opinion that the Government of Ontario should implement such a comprehensive universal Government-operated plan until the Federal Government's plan becomes operative.

Such a plan should include the following principles among others:

1. Mental illness shall be treated on the same basis as all other illness.
 2. Tuberculosis patients shall be completely covered.
 3. Doctors shall be paid on a fee for service basis and be free to practise within or without the Plan.
 4. The patient shall have the right to be treated by the doctor of his choice.
 5. No Means Test.
-
15. *Mr. Young*—Resolution—That legislation be enacted to provide a system of compensation without fault for injuries, death and property damage caused by automobile accidents, as unanimously recommended by the Select Committee on Automobile Insurance, and that such a system be administered by a public agency.
 16. *Mr. Wells*—Resolution—That, as, in the opinion of this House, the Criminal Code of Canada's injunction against the dissemination of birth control information and the promotion and sale of contraceptive substances and devices is an anachronism which is being defied every day and is not being enforced, appropriate representations be made to the Government of Canada advocating the repeal of that portion of Section 150, Clause 2 (c) of the Criminal Code which pertains to contraception.
 17. *Mr. Lewis* (Scarborough West)—Resolution—That, in the opinion of this House, the provisions of the Criminal Code which relate to the subject-matter of abortion are ambiguous, ill-defined, and harshly restrictive; and

that therefore this House urges upon the Government of Canada the repeal and subsequent re-drafting of the relevant sections 237 (1) (2) (3) and 209 (1) (2) of the Code in the direction of liberalizing the grounds for the granting of therapeutic abortion to take into account such factors as, in addition to preserving the life of the mother, rape, incest, emotional well-being, and related considerations.

18. *Mr. Kerr*—Resolution—That, in view of the high cost of repairing motor vehicles and the corresponding increase in insurance rates in Ontario, a study be conducted as to the procedure followed by insurance companies licensed in the Province in assessing and adjusting accident claims, including the system of tendering on cost of repairs of insured vehicles.
19. *Mr. Lawrence* (Russell)—Resolution—That this Legislature by formal resolution let it be known to the Legislatures and peoples of its sister Provinces that our faith in Canada as a viable and successful independent nation transcends the whole question of the status of individual Provinces within our Confederation.

7. *Mr. Worton*—Resolution—That discussions be initiated with the federal government to institute changes in the laws of divorce for the Province of Ontario to alleviate the hardships at present caused by such matters as the deserted wife, the difficulties caused on certain occasions by the law of domicile, long-term imprisonment, confinement to mental institutions, and related matters.

10. *Mr. MacDonald*—Resolution—That, in the opinion of this House, a Select Committee should be established to consider Ontario's approach to changes in the constitution, particularly an amending formula; that this committee should commence its work immediately, and report to the 1967 Session of the Legislature.

12. *Mr. Sopha*—Resolution—That, in the opinion of this House, it is deplorable that the citizens of many organized municipalities have not got adequate and certain supplies of fresh and potable water nor have the citizens of many municipalities adequate sewage disposal facilities, and, in the opinion of this House, adequate water and sewage services are a minimum requirement for the protection of health, enjoyment of a reasonable standard of living and the attraction and development of industrial growth.  18. *Mr. Kerr*—Resolution—That, in view of the high cost of repairing motor vehicles and the corresponding increase in insurance rates in Ontario, a study be conducted as to the procedure followed by insurance companies licensed in the Province in assessing and adjusting accident claims, including the system of tendering on cost of repairs of insured vehicles.

III. NOTICES

OTHER MOTIONS

4. *Mr. Gaunt*—Revised Resolution—That the Ontario Hospital Services Commission extend coverage to all aged and infirm persons who are no longer eligible to remain in hospital but require long-term care and who choose to enter a nursing home, provided that nursing home is provincially licensed and inspected. Also, That O.H.S.C. be extended to cover disabled children, whose disability is so great that they are incapable of caring for themselves.
8. *Mr. Oliver*—Resolution—That the Ontario Water Resources Commission be instructed to report upon the feasibility of piping water from the Great Lakes to drought areas in Western Ontario.
9. *Mr. Spence*—Resolution—That legislation be enacted to permit school boards located in cash crop areas of the province to extend the summer holiday for high school students by one week, such week to be recovered during the school year or at the beginning of the summer holidays in the following year, in order to provide a maximum labour force for farmers harvesting cash crops.
10. *Mr. MacDonald*—Resolution—That, in the opinion of this House, a Select Committee should be established to consider Ontario's approach to changes in the constitution, particularly an amending formula; that this committee should commence its work immediately, and report to the 1967 Session of the Legislature.
11. *Mr. Bryden*—Resolution—That, in the opinion of this House, the Government should forthwith announce an intention to co-operate with the federal government in implementing at the earliest possible date a universal medical care insurance program administered by a provincial agency, which will apply to all residents on uniform terms and conditions, will cover the services of both specialists and general practitioners, and will provide for portability of benefits among provinces.
12. *Mr. Sopha*—Resolution—That, in the opinion of this House, it is deplorable that the citizens of many organized municipalities have not got adequate and certain supplies of fresh and potable water nor have the citizens of many municipalities adequate sewage disposal facilities, and, in the opinion of this House, adequate water and sewage services are a minimum requirement for the protection of health, enjoyment of a reasonable standard of living and the attraction and development of industrial growth. This House is further of the opinion that the Government has lacked direction and purpose in providing for many thousands of our citizens their minimum requirements of fresh water and reasonable facilities of sewage disposal.
13. *Mr. Ben*—Motion for a Return of the report from the Municipality of Metropolitan Toronto to the Attorney General on the operation of Juvenile and Family Courts, together with the previous report on the same subject made to Mr. Roberts shortly before he relinquished the portfolio of Attorney General.

14. *Mr. Trotter*—Resolution—That this House support the Federal Government's proposed comprehensive, universal Government-operated health insurance program covering all of the people of Canada. This House is of the opinion that the Government of Ontario should implement such a comprehensive universal Government-operated plan until the Federal Government's plan becomes operative.

Such a plan should include the following principles among others:

1. Mental illness shall be treated on the same basis as all other illness.
 2. Tuberculosis patients shall be completely covered.
 3. Doctors shall be paid on a fee for service basis and be free to practise within or without the Plan.
 4. The patient shall have the right to be treated by the doctor of his choice.
 5. No Means Test.
15. *Mr. Young*—Resolution—That legislation be enacted to provide a system of compensation without fault for injuries, death and property damage caused by automobile accidents, as unanimously recommended by the Select Committee on Automobile Insurance, and that such a system be administered by a public agency.
16. *Mr. Wells*—Resolution—That appropriate representations be made to the Government of Canada advocating the repeal of that portion of Section 150, Clause 2 (c), of the Criminal Code which pertains to contraception.
17. *Mr. Lewis* (Scarborough West)—Resolution—That this House urges upon the Government of Canada the repeal and subsequent re-drafting of the relevant sections 237 (1) (2) (3) and 209 (1) (2) of the Criminal Code in the direction of liberalizing the grounds for the granting of therapeutic abortion to take into account such factors as, in addition to preserving the life of the mother, rape, incest, emotional well-being, and related considerations.
18. *Mr. Kerr*—Resolution—That, in view of the high cost of repairing motor vehicles and the corresponding increase in insurance rates in Ontario, a study be conducted as to the procedure followed by insurance companies licensed in the Province in assessing and adjusting accident claims, including the system of tendering on cost of repairs of insured vehicles.
19. *Mr. Lawrence* (Russell)—Resolution—That this Legislature by formal resolution let it be known to the Legislatures and peoples of its sister Provinces that our faith in Canada as a viable and successful independent nation transcends the whole question of the status of individual Provinces within our Confederation.
20. *Mr. Bukator*—Resolution—That a Select Committee of this House be appointed to inquire into and report upon all aspects of pollution in the waters of the Great Lakes and the problems of air pollution in Ontario.

18. *Mr. Kerr*—Resolution—That, in view of the high cost of repairing motor vehicles and the corresponding increase in insurance rates in Ontario, a study be conducted as to the procedure followed by insurance companies licensed in the Province in assessing and adjusting accident claims, including the system of tendering on cost of repairs of insured vehicles.

III. NOTICES

OTHER MOTIONS

4. *Mr. Gaunt*—Resolution—That the Ontario Hospital Services Commission extend coverage to all aged and infirm persons who are no longer eligible to remain in hospital but require long-term care and who choose to enter a nursing home, provided that nursing home is provincially licensed and inspected. Also, That O.H.S.C. be extended to cover disabled children, whose disability is so great that they are incapable of caring for themselves.
8. *Mr. Oliver*—Resolution—That the Ontario Water Resources Commission be instructed to report upon the feasibility of piping water from the Great Lakes to drought areas in Western Ontario.
10. *Mr. MacDonald*—Resolution—That, in the opinion of this House, a Select Committee should be established to consider Ontario's approach to changes in the constitution, particularly an amending formula; that this committee should commence its work immediately, and report to the 1967 Session of the Legislature.
12. *Mr. Sopha*—Resolution—That, in the opinion of this House, it is deplorable that the citizens of many organized municipalities have not got adequate and certain supplies of fresh and potable water nor have the citizens of many municipalities adequate sewage disposal facilities, and, in the opinion of this House, adequate water and sewage services are a minimum requirement for the protection of health, enjoyment of a reasonable standard of living and the attraction and development of industrial growth. This House is further of the opinion that the Government has lacked direction and purpose in providing for many thousands of our citizens their minimum requirements of fresh water and reasonable facilities of sewage disposal.
13. *Mr. Ben*—Motion for a Return of the report from the Municipality of Metropolitan Toronto to the Attorney General on the operation of Juvenile and Family Courts, together with the previous report on the same subject made to Mr. Roberts shortly before he relinquished the portfolio of Attorney General.
14. *Mr. Trotter*—Resolution—That this House support the Federal Government's proposed comprehensive, universal Government-operated health insurance program covering all of the people of Canada. This House is of the opinion that the Government of Ontario should implement such a comprehensive universal Government-operated plan until the Federal Government's plan becomes operative.

Such a plan should include the following principles among others:

1. Mental illness shall be treated on the same basis as all other illness.
2. Tuberculosis patients shall be completely covered.

3. Doctors shall be paid on a fee for service basis and be free to practise within or without the Plan.
 4. The patient shall have the right to be treated by the doctor of his choice.
 5. No Means Test.
15. *Mr. Young*—Resolution—That legislation be enacted to provide a system of compensation without fault for injuries, death and property damage caused by automobile accidents, as unanimously recommended by the Select Committee on Automobile Insurance, and that such a system be administered by a public agency.
 16. *Mr. Wells*—Resolution—That appropriate representations be made to the Government of Canada advocating the repeal of that portion of Section 150, Clause 2 (c), of the Criminal Code which pertains to contraception.
 18. *Mr. Kerr*—Resolution—That, in view of the high cost of repairing motor vehicles and the corresponding increase in insurance rates in Ontario, a study be conducted as to the procedure followed by insurance companies licensed in the Province in assessing and adjusting accident claims, including the system of tendering on cost of repairs of insured vehicles.
 19. *Mr. Lawrence* (Russell)—Resolution—That this Legislature by formal resolution let it be known to the Legislatures and peoples of its sister Provinces that our faith in Canada as a viable and successful independent nation transcends the whole question of the status of individual Provinces within our Confederation.
 20. *Mr. Bukator*—Resolution—That a Select Committee of this House be appointed to inquire into and report upon all aspects of pollution in the waters of the Great Lakes and the problems of air pollution in Ontario.

Also, That O.H.S.C. be extended to cover disabled children, whose disability is so great that they are incapable of caring for themselves.
8. *Mr. Oliver*—Resolution—That the Ontario Water Resources Commission be instructed to report upon the feasibility of piping water from the Great Lakes to drought areas in Western Ontario.
10. *Mr. MacDonald*—Resolution—That, in the opinion of this House, a Select Committee should be established to consider Ontario's approach to changes in the constitution, particularly an amending formula; that this committee should commence its work immediately, and report to the 1967 Session of the Legislature.
12. *Mr. Sopha*—Resolution—That, in the opinion of this House, it is deplorable that the citizens of many organized municipalities have not got adequate and certain supplies of fresh and potable water nor have the citizens of many municipalities adequate sewage disposal facilities, and, in the opinion of this House, adequate water and sewage services are a minimum requirement for the protection of health, enjoyment of a reasonable standard of living and the attraction and development of industrial growth. This House is further of the opinion that the Government has lacked direction and purpose in providing for many thousands of our citizens their minimum requirements of fresh water and reasonable facilities of sewage disposal.
13. *Mr. Ben*—Motion for a Return of the report from the Municipality of Metropolitan Toronto to the Attorney General on the operation of Juvenile and Family Courts, together with the previous report on the same subject made to Mr. Roberts shortly before he relinquished the portfolio of Attorney General.

This House is of the opinion that the Government of Ontario should implement such a comprehensive universal Government-operated plan until the Federal Government's plan becomes operative.

Such a plan should include the following principles among others:

1. Mental illness shall be treated on the same basis as all other illness.
2. Tuberculosis patients shall be completely covered.

3. Doctors shall be paid on a fee for service basis and be free to practise within or without the Plan.
 4. The patient shall have the right to be treated by the doctor of his choice.
 5. No Means Test.
15. *Mr. Young*—Resolution—That legislation be enacted to provide a system of compensation without fault for injuries, death and property damage caused by automobile accidents, as unanimously recommended by the Select Committee on Automobile Insurance, and that such a system be administered by a public agency.

 18. *Mr. Kerr*—Resolution—That, in view of the high cost of repairing motor vehicles and the corresponding increase in insurance rates in Ontario, a study be conducted as to the procedure followed by insurance companies licensed in the Province in assessing and adjusting accident claims, including the system of tendering on cost of repairs of insured vehicles.
 19. *Mr. Lawrence* (Russell)—Resolution—That this Legislature by formal resolution let it be known to the Legislatures and peoples of its sister Provinces that our faith in Canada as a viable and successful independent nation transcends the whole question of the status of individual Provinces within our Confederation.
 20. *Mr. Bukator*—Resolution—That a Select Committee of this House be appointed to inquire into and report upon all aspects of pollution in the waters of the Great Lakes and the problems of air pollution in Ontario.

Also, That O.H.S.C. be extended to cover disabled children, whose disability is so great that they are incapable of caring for themselves.
8. *Mr. Oliver*—Resolution—That the Ontario Water Resources Commission be instructed to report upon the feasibility of piping water from the Great Lakes to drought areas in Western Ontario.
10. *Mr. MacDonald*—Resolution—That, in the opinion of this House, a Select Committee should be established to consider Ontario's approach to changes in the constitution, particularly an amending formula; that this committee should commence its work immediately, and report to the 1967 Session of the Legislature.
12. *Mr. Sopha*—Resolution—That, in the opinion of this House, it is deplorable that the citizens of many organized municipalities have not got adequate and certain supplies of fresh and potable water nor have the citizens of many municipalities adequate sewage disposal facilities, and, in the opinion of this House, adequate water and sewage services are a minimum requirement for the protection of health, enjoyment of a reasonable standard of living and the attraction and development of industrial growth. This House is further of the opinion that the Government has lacked direction and purpose in providing for many thousands of our citizens their minimum requirements of fresh water and reasonable facilities of sewage disposal.
13. *Mr. Ben*—Motion for a Return of the report from the Municipality of Metropolitan Toronto to the Attorney General on the operation of Juvenile and Family Courts, together with the previous report on the same subject made to Mr. Roberts shortly before he relinquished the portfolio of Attorney General.

This House is of the opinion that the Government of Ontario should implement such a comprehensive universal Government-operated plan until the Federal Government's plan becomes operative.

Such a plan should include the following principles among others:

1. Mental illness shall be treated on the same basis as all other illness.
2. Tuberculosis patients shall be completely covered.

3. Doctors shall be paid on a fee for service basis and be free to practise within or without the Plan.

 5. No Means Test.

 18. *Mr. Kerr*—Resolution—That, in view of the high cost of repairing motor vehicles and the corresponding increase in insurance rates in Ontario, a study be conducted as to the procedure followed by insurance companies licensed in the Province in assessing and adjusting accident claims, including the system of tendering on cost of repairs of insured vehicles.
 19. *Mr. Lawrence* (Russell)—Resolution—That this Legislature by formal resolution let it be known to the Legislatures and peoples of its sister Provinces that our faith in Canada as a viable and successful independent nation transcends the whole question of the status of individual Provinces within our Confederation.
 20. *Mr. Bukator*—Resolution—That a Select Committee of this House be appointed to inquire into and report upon all aspects of pollution in the waters of the Great Lakes and the problems of air pollution in Ontario.
